Cultural Journey from Anatolia to Balkans-Info pack

“Are you ready for an adventure full of culture? where culture meets adventure, and learning becomes an experience?”

Let's begin!

Places we are going to visit

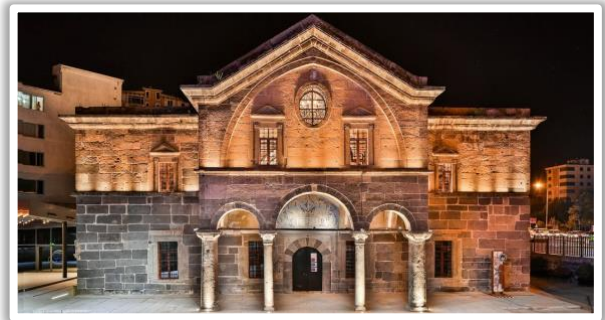

Places with cultural background

Kayseri is one of Anatolia's most historically layered cities, rooted at the foot of Mount Erciyes and shaped by centuries of civilization. From the ancient Mazaca and Roman periods to the Byzantine, Seljuk, and Ottoman eras, Kayseri has always been a cultural crossroads.

In the first photo, you'll see, rising in the heart of the city, **Kayseri Castle** is a magnificent fortress whose roots stretch back to the Roman era.

The second one Its narrow stone streets, wood-and-stone mansions, and centuries-old churches and mosques reflect a rich cultural tapestry, once home to Turkish, Armenian, Greek, and other communities: **'Old Talas'**.

The third, **Yaman Dede Mosque**, Known historically as 'Panaya Church', carries a dual identity: first as a Christian church, later transformed into a mosque.
