Age between 18-30 years old

Thinking Beyond the Screen

What Do We Aim to Achieve?

The project aims to strengthen young people's digital literacy and encourage them to approach online information with a critical and informed mindset. Through project activities, participants will learn to identify misleading content, evaluate the reliability of digital sources, and understand the impact of misinformation on individuals and society. They will also be encouraged to share their knowledge with their peers and local communities, promoting more responsible digital behaviour across participating countries.

The project will introduce practical methods for integrating digital literacy and critical thinking into youth work, helping youth workers and young people respond more effectively to the challenges of today's digital environment.

Main Objectives of the Project

1. To improve young people's ability to assess the credibility, accuracy, and reliability of online content.
2. To help participants recognise misleading information, manipulated content, and common techniques used to spread misinformation.
3. To strengthen communication, teamwork, leadership, and information-sharing skills through interactive activities and community engagement.
4. To encourage participants to apply the knowledge and experience gained during the project in their own countries and local communities.
5. To promote intercultural learning, mutual understanding, and cooperation among young people from different backgrounds.
6. To help young people become more confident and responsible digital users who can navigate online challenges critically and safely.

WELCOME TO SPAIN!

Spain is a diverse and dynamic country located in southwestern Europe, known for its rich history, strong regional identities, and vibrant social life. Rather than being defined by a single culture or lifestyle, Spain is a mosaic of regions, each with its own traditions, languages, and ways of life. This diversity shapes daily life, communication styles, and local customs across the country.

Spanish society places a strong value on community, social interaction, and balance between work and personal life. Daily routines may feel different from those in other countries, with later meal times and a slower pace in the afternoons, especially outside major business districts. At the same time, Spain is a modern European country with well-developed infrastructure, public services, and a strong emphasis on social inclusion.

Spain is also known for its commitment to education, youth participation, and international cooperation, particularly through European programs such as Erasmus+. Non-formal learning, intercultural dialogue, and active citizenship are widely supported, making the country a familiar and welcoming environment for international projects.

Environmental awareness and sustainability are increasingly important topics in Spain, especially in urban development, mobility, and community initiatives. Many cities promote public transport, green spaces, and citizen involvement in environmental action.

Overall, Spain offers an open, social, and collaborative environment where participants can experience everyday European life while engaging in meaningful learning and exchange.

Participation in the project is free of charge!

Accommodation

Details regarding accommodation, typically arranged at hostels, will be communicated through various channels, emphasizing the importance of staying informed. Additionally, please note that accommodations during the project will usually be in hostels. Hostels are known for their affordability and communal atmosphere, providing basic amenities. Therefore, we suggest you pack personal items if you wish. Detailed information about transportation to the accommodation will be provided through the project's Facebook group.

Kindly be informed that three meals per day will be provided.

Please note that check-in to the rooms is after 2:00 pm and check-out is until 11:00 am.

MAXIMUM REIMBURSEMENT PER PERSON	
COUNTRY	**PER PERSON (€)**
Spain	€0
Hungary	€309
Italy	€309
Romania	€395
Türkiye	€309

Please note that reimbursements will be transferred to your organization's or team leader's account on the 8th of June 2027. Early or late payments outside this general timeframe are not possible.

Please send your reimbursement documents, such as tickets, boarding passes, invoices and passport copies, to our email address: asociaciontecnologiaetica@gmail.com.

Selecting participants who match the project profile is the responsibility of each sending organisation.

Travel reimbursement is based on actual expenses and is subject to the maximum limit assigned to each country. These figures do not represent guaranteed or fixed payments. Any amount not used for travel will remain in the project budget under the hosting organisation and help finance project activities and materials. Participants whose travel costs exceed the limit will be reimbursed only up to the applicable ceiling. All project-related funding is administered by the host organisation. Participants cannot request separate payments from the project budget and may only claim reimbursement for actual ticket costs within the approved travel limit and project rules.

TRAVEL GUIDE

By Air

Navarra does not have a major international airport. The most commonly used airports for international arrivals are:

Madrid–Barajas Airport (MAD) – best option for international flights

Zaragoza Airport (ZAZ) – approx. 90 km from Tudela

Pamplona Airport (PNA) – approx. 85 km from Tudela

From these airports, participants can continue their journey to Tudela (Navarra) by train or intercity bus.

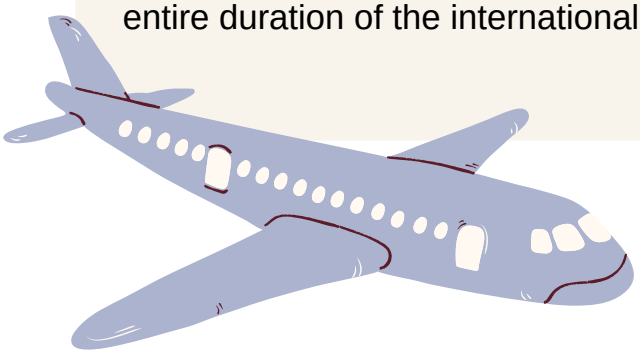

By Train

The main railway station serving the project location is Tudela de Navarra, which is well connected to Spain's national rail network. From Madrid, direct long-distance trains reach Tudela in approximately 2–2.5 hours. From Zaragoza, the journey takes around 1 hour. From Pamplona, travel time is approximately 1.5 hours. Train travel is one of the most recommended and comfortable ways to reach the project location.

By Bus

Intercity bus services connect Tudela with major Spanish cities, including Madrid, Zaragoza, Pamplona, and Barcelona. Buses arrive at Tudela Bus Station, which is located close to the city center and accommodation areas.

As you get ready for your upcoming trip, we would like to share some key information to help make your experience as smooth and enjoyable as possible. We strongly encourage you to keep an eye on available travel options and explore different possibilities such as flights, trains, or other modes of transportation. It's important that you actively search for the most convenient and cost-effective option. Please remember that before booking any tickets, you are required to consult with us and ensure that you've found the best possible deal. Having valid travel insurance for the entire duration of the international stay would be beneficial.

IMPORTANT

Respect & Cultural Awareness – Be respectful to others and consider cultural differences. Follow the guidance of the hosting organization.

Punctuality & Participation – Attend all activities on time. Repeated lateness without a valid reason may result in removal from the project.

Prohibited Substances – The use or distribution of drugs is strictly forbidden. Violators will be removed and reported to authorities.

Behavior Expectations – Any form of violence, discrimination, or disruptive behavior will lead to expulsion from the project.

Communication – Participants must join WhatsApp & Facebook groups for project updates and coordination.

Media & Dissemination – Photos and videos from the project will be shared on social media as required by Erasmus+ guidelines. Participation implies consent to this.

Administrative Compliance Participants must provide all necessary documents (boarding passes, ID copies, travel tickets, insurance, etc.) to the organizers for reporting and reimbursement purposes.

Accommodation Etiquette – Respect shared living spaces. Keep noise levels down during rest hours, especially at night. Clean up after yourself in common areas.

Responsibility for Property – Treat all project materials, equipment, and venues with care. Participants may be held financially responsible for intentional damage.

Health & Safety – Inform organizers if you're feeling unwell, overwhelmed, or face any issue. Emergency contacts and local support will be provided during the project.

Leaving the Venue – Participants must inform the organizers if they leave the project venue for any reason during scheduled activities.
